**CARTRIDGE TYPE: MEDIA TYPE:**

FP  
FDA Polypropylene

**DESCRIPTION:**

Filtration of water, potable liquids, animal and vegetable oils, organic acids, alkalis, and many other chemicals. Ideally suited for potable water, Pharmaceutical and Food Processing applications.

**CENTER CORE:**

FDA Approved Polypropylene, FDA Approved S/S 304, FDA Approved S/S 316

**END TREATMENT:**

Poly Flat Cap, Poly Fin, Poly Spring, 222 End Cap, 226 End Cap

**INSIDE DIAMETER:**

1"

**OUTSIDE DIAMETER:**

1.75", 2", 2.125", 2.375", 2.4375", 2.50", 2.625", 2.75", 3", 4", 4.25", 4.5", 6"

**MICRON RATINGS:**

.5, 1, 3, 5, 10, 15, 20, 25, 30, 50, 75, 100, 150, 200

**LENGTH:**

5" - 72"

**RECOMMENDED CHANGE OUT:**

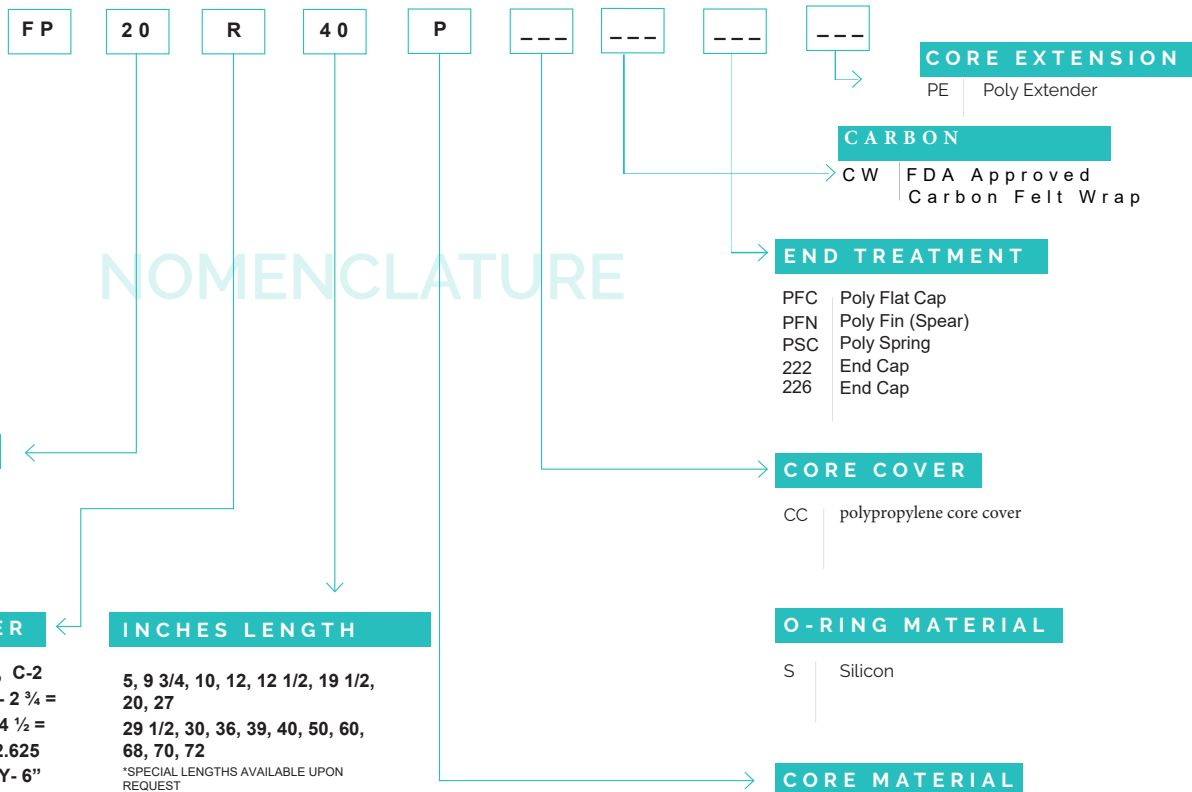

35 PSID

**FLOW RATE:**

0 - 6 GPM Per 2.5"x10" Length

**MAXIMUM MEDIA TEMPERATURE:**

150 F

Information and data presented here is believed to be reliable but is not warrant of product performance. Verification testing is recommended to determine suitability for any particular use. Actual cartridge performance will vary with liquid conditions. Product characterizations are based on the average performance of duplicate cartridge's samples selected at random.
